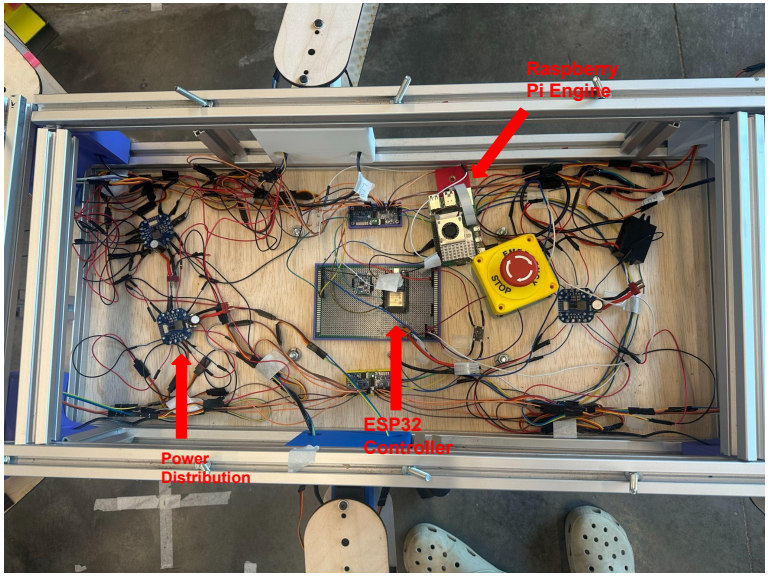
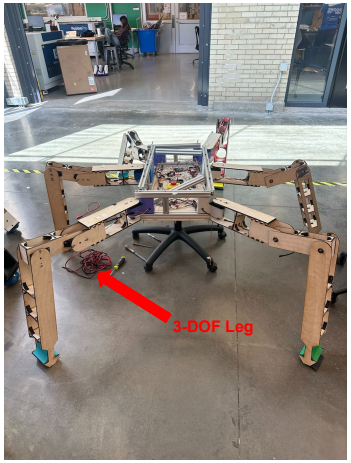
Team 6 - Peas in a HexaPod





Thomas Wang - Software
Mithun Roy - Electrical/Mechanical
Leena Aljurashi - Electrical/Embedded
Dillon Ma - Mechanical

Main principles of operation:

- 6-leg 3-DOF system
- Inverse kinematics-based locomotion
- Raspberry Pi-based engine
- ESP32 real-time control

Notable design aspects:

- Vision-based AprilTag control
- Dual control interfaces (Xbox controller + web GUI)
- Foldable legs for easy transport
- Programmable motion sequences (preset dance moves)
